The Vista

Many residents attended our open house event on March 31. Newly named, The Vista (formerly Penthouse), is now open for residents to enjoy. Contact the Reception Desk if you would like to reserve the space for a private event.

Campus Upgrades

The Garden Level renovation is about 90% complete. The new flooring is in place. Next steps include furnishing, sign installation, and shelving installation for The Lemon Tree. This will wrap up major projects until later this summer when the 2nd Floor of the Health Care Center will be renovated to be office space for the Corporate Leadership Team.

Internet Outage

We apologize for the two internet outages in March. Both outages were triggered by a power surge. After the second outage, our internet provider replaced the hardware. A battery was also purchased for the hardware to minimize the risk of recurring outages.

Gratitude for Lynette

For personal reasons, Lynette Mitchell has decided to resign. Her dedication and commitment to Hermitage Northern Virginia and The View Alexandria as the Director of Marketing for nearly 12 years has been invaluable. She will be missed by the team and the many residents and their families who know and love her. A card is available to sign for Lynette at the table near the dining room. Please join me in extending our very best to Lynette.

Writing Group

By: Kelly Pavela

Every Monday, at 11:00 a. m.

Private Dining Room

During the last ten days, people are asking "*What, exactly is the Writer's Group and its purpose?*" First, and most important, is that it is not a replacement for the View's newsletter. In fact, the newsletter will continue to publish twice a month with community upcoming activities, birthdays, and other pertinent information.

On the other hand, the Writer's Group is two-fold. First, it is a place for writers to write all kinds of things: poetry, fiction, horror, life experiences, humor, or whatever is on your mind and heart to share with a group of supportive individuals. It is a fun, relaxing, and creative way of expressing and sharing ourselves with the community.

I'm not done yet... Rumor has it that there will be a brand new quarterly digest coming to you soon! That's right! The View will publish a digest of residents', resident families', and team members' original writing works. And, guess what? You don't even have to go to the Writing Group to participate. Just submit your work(s), with your name, in the Suggestions Box on the first floor by the receptionist desk. Our first issue will be in July, so there is plenty of time.

Don't wait! start having fun today!

Participants and partners can learn vocal techniques and harmony, while singing familiar songs. At the end of each semester, a concert is held, and once a year all the Encore choirs come together and perform at the Kennedy Center. You do not need any prior singing skills, and anyone is welcome to join rehearsals!

The Pie Man is Here

By: Norma Jean Lawton

Remember hovering under our desk in school during Atomic Bomb drills? By the 90s we added fire drills, tornado drills, locker inspections, bomb threats, and “crazy gunmen” lockdowns. Notifying teachers of a lockdown over the loud speaker, but not scaring students, meant having a code word. Teachers would immediately go through the drill—lights out, pull the blinds, cover the door window, lock it, and keep the kids quiet.

The first year we “practiced lock downs” we had a new Spanish teacher, Mary, who had transferred mid-year and had missed our previous practices. One Friday afternoon the announcement came, “The Pie Man is here.” Mary immediately went in to action—in Spanish: Lights! Windows! Door! Quiet! The students followed her instructions dutifully, but before long they heard other students outside their room.

Mary slipped out the door to ask her neighbor, me –why there hadn’t been an “all clear” announcement.

“Why would we need one?” I asked.

“The code! The Pie Man.” She stammered.

“Oh Mary, there really *is* a Pie Man!” I laughed. “He comes on Fridays, has the most wonderful home made fruit and pecan pies.”

I retired in 2000 and began substituting in the high school. Langley was my favorite one. The principal was a former student of mine from 1976. I was a frequent sub and a requested sub in Fashion Marketing (Yes, there is a card game called “Barbie Goes Shopping”).

Lockdowns had become almost a monthly practice. I assured the girls that it would “be over my dead body” before a crazed gunman got into our classroom. They assured **me** that they would get behind their tipped-over desks, throw their purses at the gunman, and scream “There’s no crying in lockdowns!!”

After President’s Day weekend in 2018, I was flying home from my sister’s funeral in Florida. The Parkland High School shooting had just happened. I was sitting next to a gentleman who was on his way to a new job here in Virginia. He wanted to know about our schools, especially about how safe his kids would be. All I could assure **him** of was that we’d had lots of practice lockdowns.

I loved teaching and had always said I’d retire when I was tired. But by 80, I was scared. Now, at 84, I am heartbroken again over another school shooting.
