### SATURDAY CINEMA MATINEE - SILENT FILMS SPECIAL: CHARLIE CHAPLIN

Saturday, April 27 from 12:00 p.m. to 1:30 p.m. | Board Room

Charlie Chaplin is best remembered for his recurring silent film character “the Little Tramp.” Outfitted in a too-small coat, too-large pants, floppy shoes, and a battered derby, Tramp was shunned by polite society and unlucky in love but ever a survivor. Audiences loved his cheekiness, his deflation of pomposity, his unexpected gallantry, and his resilience. In 1972 he received a special Academy Award for “the incalculable effect he has had on making motion pictures the art form of this century.”

## TRIPS NEWS, UPDATES, ANNOUNCEMENTS

### NATIONAL SYMPHONY MATINEE, FRIDAY, MAY 31 SONG OF THE NIGHT: NOSEDA CONDUCTS MAHLER'S SEVENTH SYMPHONY

Friday, May 31, 2024 | Boards at 10:15 a.m., Main Entrance | Departs Kennedy Center immediately after the concert ends at 1:00 p.m.

Composed in a furious burst of inspiration, the Seventh is Mahler at his most mysterious—some may even say peculiar. (Musicologist Deryck Cooke famously called it the “mad, mad, mad, mad symphony”). Indulgent, elusive, and delightfully raw, the Seventh is a problem child for some conductors, but not Nosedá. From clanging cowbells and titanic brass to intimate midnight mandolin, Mahler’s glamorous, dusk-to-dawn universe is far beyond this world. This symphony shines like an evening star.

**April 30, 2024: The Arts Center and the Arts Committee**

Learn about the components of arts programming at GHBC, which enhances the creative lives of GHBC residents, team members, and visitors. Sarah Henninger, Arts Coordinator, and Jan Pomerantz, Arts Committee Chair, share how to get involved with the visual arts, including shows in the Art Gallery, a wide array of classes (drawing, painting, and ceramics) and events (art films and movies about art movements and artists), in the Arts Center and with trips to local and regional museums and galleries. Margaret Kelley hosts.

**NEW RESIDENT BIO - DEBI SANDERS AND DENNIS SHANNON**

Debi Sanders and Dennis Shannon moved into Crossroads apartment 434 on March 19. Debi was born in Missouri but moved often following her father's career. The family finally settled in Springfield, Virginia, where she graduated from what was then called Robert E. Lee High School but is now called John Lewis High School. She was in the second class of women admitted to the University of Virginia, where she attended as an Echols Scholar. In the middle of her college career she took a year off to work in the AmeriCorps Vista Program in a mobile health center. She was honored to live on UVA's famous Lawn during her senior year. She remained at UVA to graduate from the School of Law and served as a law clerk with a judge. She came to Washington to join a law firm devoted to anti-trust cases and then worked at several non-profit law firms. She ended her career as an immigration lawyer with Catholic Charities. Here at GHBC she enjoys swimming every day the pool is open and is knitting blankets for premature infants.

Dennis was born at Beaufort Naval Hospital in South Carolina. He was born during a hurricane when the only light was provided by flashlights. The family moved to Wheaton, Maryland, and Dennis attended St. John's College High School and later graduated from St. Mary's College of Maryland. He earned a license as a professional counselor and master's degrees from Marymount University and from Wesley Theological Seminary. Dennis served as a medic in the Maryland National Guard for eight years and worked along the Route 1 corridor for the Fairfax County Community Services Board. He retired from Fairfax County as a substance abuse counselor. He won several awards for working with people living on the street during COVID. After retiring in 2022, Dennis has focused on physical activities. He goes to the gym every day and swims whenever possible. He used to run but now walks daily. He has even participated in a "walk friendly half marathon." Both he and Debi are active in Our Lady Queen of Peace Catholic Church.

When WALL-E meets EVE, a probe who arrives to scan for any signs of vitality on the planet, the pair team up on a galactic mission to save Earth and humanity at large.
